

LET'S TALK PARTNERSHIP

We are from the house of Godrej and a leader in home furniture. Our offerings are designed around the evolving expectations of customers. And our plan is to outgrow the industry which, already, is booming at the rate of more than 20% year on year. As a part of this planned expansion, we are trying to look at **you as our Home Furniture Franchisee** partnering and growing alongside us.

To be our Home Furniture Franchise in your area, you've got to be a dynamic and interested entrepreneur who can dedicate around 4000 sq. ft. of retail space to this business. As a Kitchen Franchise, 800 sq. ft. of retail property is all you need to have.

With us, you enjoy the advantage of consumer-centric quality products. You receive assistance in designing the retail outlet, displaying stocks and promoting your store. And yes, you get those growing footfalls to focus on.
